

MANDATORY Requirement/Function		<i>Is your country interested in contributing to this function of an RCC for Antarctic? (Yes/No)</i>
<b>Operational Activities for Long Range Forecasts (LRF)</b>		
Interpret and assess relevant LRF products from Global Producing Centres (GPCs), distribute relevant information to RCC Users; and provide feedback to GPCs		Australia, Chile, Finland, (Italy), Japan, Korea, USA
Generate regional and sub-regional tailored products, relevant to RCC User needs, including seasonal outlooks etc.		Argentina, Australia, Chile, (Finland), (Italy), Japan, Korea, USA
Generate consensus statement on regional or sub-regional forecasts		Chile, (Finland), (Italy), Korea, Norway, Peru, Russia, Sweden, USA
Perform verification of RCC quantitative LRF products, including the exchange of basic forecasts and hindcast data		Argentina, Australia, Chile, Finland, India, (Italy), Korea, Norway, Russia, USA
Provide on-line access to RCC products/services to RCC Users		Argentina, Australia, Chile, Italy, Korea, Norway, USA
Assess use of RCC products and services through feedback from RCC Users		Argentina, Australia, Chile, India, Italy, Korea, Norway, Peru,
<b>Operational Activities for Climate Monitoring</b>		
Perform climate diagnostics including analysis of climate variability and extremes, at regional and sub-regional scales		Argentina, Chile, (Denmark), (France), India, (Italy), Japan, Korea, Norway, Peru, Russia,
Establish an historical reference climatology for the region and/or sub-regions		Argentina, Australia, Chile, (France), India, Italy, Japan, Korea, Norway, Russia, UK,
Implement a Regional Climate Watch		Argentina, (Australia), Chile, (France), India, (Italy), Japan, Korea, Norway, Russia, USA
<b>Operational Data Services, to support operational LRF and climate monitoring</b>		
Develop quality controlled regional climate datasets, gridded where applicable		Argentina, Australia, Chile, (Denmark), (France), (India), (Italy), Japan, Korea, Norway, Russia, UK,
Provide climate database and archiving services, at the request of Members		Argentina, Chile, India, Italy, Japan, Korea, Norway, Russia, UK,
<b>Training in the use of operational RCC products and services</b>		
Provide information on methodologies and product specifications for mandatory RCC products, and provide guidance on their use		Argentina, (Australia), Chile, (France), Korea, Russia,
Coordinate training for RCC Users in interpretation and use of mandatory RCC products		Argentina, (Australia), Chile, (France), Korea, Peru,
